Pool, spa, cabana and poolscaping: B&B Pool and Spa Center

Top Quality and Reliability From A to Z

At B&B Pool and Spa Center, our 35 years of service experience have made quality and reliability our first consideration. From our materials to our methods of construction to our equipment, we provide the level of quality that ensures reliability. B&B buys only from the best manufacturers, such as Pentair, Sundance Spas and Viking. As a warranty center for the products we sell and install, we enjoy a factory-direct relationship that allows us to select the best components for the job from each manufacturer's entire product mix, not just what's available locally. Our reputation for excellence extends to all our products. Be it a pump or a skimmer net, there's never any second-guessing: You can be sure that B&B offers the greatest possible quality and reliability.
